

Marquis Jet Card pricing begins at \$115,900 plus monthly fuel variable, government imposed fees and taxes for 25 hours on NetJets Hawker 400XP. Card prices applicable to the Marquis Jet North American Program through December 31, 2010.

ADDITIONAL FEES, FUEL VARIABLE AND TAX INFORMATION

The U.S. government charges taxes and additional fees on air transportation. Prices indicated are subject to increase in accordance with the terms and conditions of the documents governing the Marquis Jet Card Program, including fuel-related variations.

The price indicated represents the base price for 25 occupied hours subject to the following taxes and government-imposed fees:

For those occupied hours used for domestic (US) transportation (including flights to or from certain portions of Canada and Mexico), the following taxes and fees may apply:

- Federal Excise Tax of 7.5%
- Per Passenger Taxes of \$3.70 per flight segment
- Per Passenger Facility Charges of up to \$4.50 per departure
- Per Passenger September 11 Security Fee of \$2.50

For example, the all-inclusive price for 25 hours flown only in domestic transportation within the continental U.S. using a Hawker 400XP would be \$124,593 plus applicable per passenger US-imposed taxes and fees.

For those occupied hours used for international transportation, the portion of the listed price allocated to such hours is all-inclusive except for the international departure and arrival taxes of \$16.10 per passenger, for each inbound and outbound international flight segment, and the \$2.50 September 11 security fee per flight segment (departing from the United States).

For the month of October 2010, the hourly fuel variable for the Hawker 400XP was \$776.00. Please contact NetJets at 877-356-5823 for the most current fuel variable.
